**Subject:** Colgan Creek Restoration Grant Reduction Information and Phone Call

I had a phone conversation with Jill Scott from the City of Santa Rosa yesterday, the contact for Colgan Creek Restoration Project. She was happy to receive the grant and was asking about the reduction in award from the requested amount:

Ref #	Project Name	Sponsor/ Cosponsor	Total Project Cost	Requested Amount	Recommended Amount	Reduction Justification
50	Colgan Creek Restoration	Santa Rosa, City of/ Trout Unlimited	\$3,069,963	\$550,000	\$475,000	Reduced by \$75,000 for Stewardship Coordinator salary (an ineligible cost).

She informed me that this funding would complete the necessary funding for the project. I informed her that our program typically does not fund whole positions, but rather tasks with deliverables and work to be done. Potentially, the job duties of the position could be funded as tasks if they were agreed upon in the final budget and scope of work.
